Date:     /     /

### Practical Performa

Academic Year	:	2025-26	Semester	:	3 <sup>rd</sup>
Course code	:	ITUE203	Course name	:	WEB DEVELOPMENT FRAMEWORKS

### Practical - 7

**Aim:** Create a login/logout system with session & cookie handling

**1.** Explain how PHP sessions are used to manage user login and logout. Include how a session is securely started, maintained during the user's visit, and properly destroyed upon logout to prevent unauthorized access.

2. Describe how cookies are used in the “Remember Me” functionality. Explain how cookies store login information securely and how redirection is handled based on whether the user is logged in or not.

**Grade/Marks**

(\_\_\_\_/ 10)
